Think piece on Services

Project ID: 089-13

Area: ACP

The Programme advanced the commissioning of a think piece on plurilateral, multilateral and bilateral negotiations of trade in services. The initial contemplation was to conduct research on the state of play of Trade in Services Agreement (TISA) negotiations. On reflection, it became clear that such an endeavour would produce very limited results in light of the nascent nature of those talks. The original concept for the technical study was subsequently expanded to include the treatment of services in mega-RTA negotiations such as TTIP and TPP and the impact of non-ACP LDCs of the LDC services waiver.
